

STERIVIO®

Professional Veterinary Grooming Instruments

Professional grooming instruments built for reliable performance, comfort, and durability in veterinary and grooming settings.

For Veterinary & Professional Grooming Use

ABOUT STERIVIO (GROOMING CATALOG)

Sterivio provides professional-grade veterinary grooming instruments engineered to support precision, safety, and efficiency in clinical and professional grooming environments. Our grooming portfolio is designed to meet the operational demands of veterinary clinics, grooming facilities, mobile groomers, and training institutions, supporting coat care, hygiene, preparation, and finishing across a wide range of animal breeds and coat types.

Each Sterivio grooming instrument is selected and manufactured with a focus on ergonomic handling, cutting accuracy, and durability. By combining high-quality materials with practitioner-informed design, Sterivio grooming tools deliver controlled performance, reliable handling, and consistent results in high-use professional settings.

Catalog Structure

This grooming catalog is organized by functional grooming category to support efficient navigation, standardized workflows, and streamlined procurement. Products are grouped by grooming application, from cutting and coat preparation to hygiene, restraint, safety, and equipment systems.

Each product listing includes standardized information to ensure clarity and consistency across all categories:

Standardized Product Information

Instrument Name
Standard grooming designation

Variant Notes
Available sizes, blade types, tooth patterns, or configurations

Description
Primary grooming function and intended use

Material
Primary construction material

Size / Style
Commonly used configuration

Quality & Materials

Sterivio grooming instruments are manufactured using high-quality stainless steel, composite materials, reinforced fabrics, and specialty polymers selected for durability, corrosion resistance, and reliable performance in professional grooming environments.

Cutting instruments feature precision-ground edges designed for smooth trimming, blending, and finishing across a wide range of coat types. Grooming accessories, safety equipment, and support tools are engineered for ergonomic handling and repeated daily use in veterinary clinics and professional grooming facilities.

Alternate materials, finishes, and configurations may be supplied based on grooming application and operational requirements.

Customization & Kits

Sterivio offers individual grooming instruments as well as pre-configured grooming kits designed to support standardized procedures and workflow efficiency. Kits are organized by grooming discipline, skill level, and procedure type, and may be customized based on clinic requirements, grooming volume, or operational preference.

Standard kit configurations are detailed within this catalog, with expanded and customized options available upon request.

Intended Use

This catalog is intended for professional use by:

-  Veterinary clinics and hospitals
-  Educational and training institutions
-  Professional grooming facilities and mobile grooming services
-  Procurement and supply management teams

All grooming instruments and equipment are supplied for use by trained professionals.

Using This Catalog

This catalog is designed to support efficient product selection and procurement across a broad range of professional grooming applications. Sections are organized by functional category, with instruments listed in standardized formats to support comparison, specification review, and purchasing decisions. Pre-configured grooming kits are included to support common workflows and procedural needs. Individual instruments may be ordered separately or combined into customized sets based on operational requirements.

For assistance with product selection, kit customization, or bulk procurement, Sterivio ordering support is available via the contact information provided.

Ordering support

Ordering support is available for individual instruments, pre-configured kits, customized grooming or surgical sets, and institutional procurement.

Important Notice

*Product availability may vary by region.
Specifications are subject to change without notice.*

Ordering & Contact Information

Sterivio instruments are available through direct inquiry and approved procurement channels. For product availability, pricing, customized kits, or bulk orders, please contact Sterivio using the information below.

1. GROOMING SHEARS & SCISSORS

STRAIGHT GROOMING SHEARS CURVED GROOMING SHEARS THINNING & BLENDING SHEARS

1.1 STRAIGHT GROOMING SHEARS (GR-001 → GR-003)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-001	Straight Grooming Shears	General-purpose straight cutting for coat trimming and finishing.	7" (18 cm)	Stainless Steel	6-8" (15-20 cm); convex or micro-serrated edge
GR-002	Straight Convex Grooming Shears	Precision cutting with smooth, clean finish on dense coats.	7" (18 cm)	Stainless Steel	Convex edge; 6-8" (15-20 cm)
GR-003	Heavy-Duty Straight Shears	Increased blade thickness for heavy or dense coats.	8" (20 cm)	Stainless Steel	Reinforced blades; balanced handle

1.2 CURVED GROOMING SHEARS (GR-004 → GR-006)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-004	Curved Grooming Shears (Left)	Contouring and shaping of body lines and outlines.	7" (18 cm)	Stainless Steel	Left curve; 6-8" (15-20 cm)
GR-005	Curved Grooming Shears (Right)	Precision shaping of rounded coat areas.	7" (18 cm)	Stainless Steel	Right curve; 6-8" (15-20 cm)
GR-006	Deep Curve Grooming Shears	Enhanced curvature for rounded areas and sculpting.	7" (18 cm)	Stainless Steel	Moderate/deep curve options

1.3 THINNING & BLENDING SHEARS (GR-007 → GR-010)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-007	Thinning Shears (Single-Tooth)	Controlled thinning for coat blending and texture.	6.5" (16.5 cm)	Stainless Steel	30-40 teeth
GR-008	Thinning Shears (Double-Tooth)	Even thinning on dense or double coats.	6.5" (16.5 cm)	Stainless Steel	30-46 teeth
GR-009	Blender Shears	Soft blending without visible cut lines.	7" (18 cm)	Stainless Steel	Fine tooth spacing
GR-010	Texturizing Shears	Adds texture and natural finish to coat.	7" (18 cm)	Stainless Steel	Mixed tooth patterns

CHUNKERS & SPECIALTY SHEARS

SAFETY & DETAIL SCISSORS

1.4 CHUNKERS & SPECIALTY SHEARS (GR-011 → GR-013)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-011	Chunker Shears	Rapid bulk removal on thick coats.	7" (18 cm)	Stainless Steel	Wide tooth spacing
GR-012	Heavy Chunker Shears	Aggressive thinning for coarse coats.	7.5" (19 cm)	Stainless Steel	Reinforced teeth
GR-013	Specialty Texturizing Shears	Specialty shaping and coat effects.	7" (18 cm)	Stainless Steel	Custom tooth patterns

1.5 SAFETY & DETAIL SCISSORS (GR-014 → GR-016)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-014	Safety Tip Grooming Shears	Rounded tips for facial and sensitive areas.	5.5" (14 cm)	Stainless Steel	Blunt/safety tips
GR-015	Micro Detail Grooming Scissors	Precision trimming in tight or delicate areas.	4.5" (11.5 cm)	Stainless Steel	Straight or curved
GR-016	Facial Trimming Scissors	Fine control around eyes, ears, and muzzle.	5" (12.7 cm)	Stainless Steel	Lightweight design

2. Clippers & Trimming Systems

PROFESSIONAL ELECTRIC CLIPPERS

MINI & DETAIL TRIMMERS

DETACHABLE CLIPPER BLADES

2.1 PROFESSIONAL ELECTRIC CLIPPERS (GR-017 → GR-018)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-017	Professional Grooming Clippers (Corded)	High-torque corded clipper for continuous professional use.	Full-size body	Metal housing	Variable speed motor
GR-018	Professional Grooming Clippers (Cordless)	Cordless clipper for mobility and reduced handling fatigue.	Rechargeable unit	Metal / composite	Lithium battery; multiple speed settings

2.2 MINI & DETAIL TRIMMERS (GR-019 → GR-020)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-019	Mini Detail Trimmer	Precision trimming for facial, paw, and sanitary areas.	Compact body	Composite	Narrow blade profile
GR-020	Paw & Face Trimmer	Low-noise trimmer for sensitive grooming areas.	Slim design	Composite	Fine-cut blade

2.3 DETACHABLE CLIPPER BLADES (GR-021 → GR-024)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-021	Stainless Steel Clipper Blade	General grooming blade for standard coat lengths.	Detachable blade	Stainless steel	Sizes #7- #30
GR-022	Ceramic Clipper Blade	Reduced heat build-up for extended grooming sessions.	Detachable blade	Ceramic /steel	Sizes #7- #40
GR-023	Wide Grooming Blade	Increased cutting width for large breeds.	Wide format	Stainless steel	Wide-cut profile
GR-024	Fine Detail Blade	Precision blade for close trimming.	Narrow format	Stainless steel	Fine-cut profile

SPECIALTY BLADES & GUARDS

CLIPPER MAINTENANCE

2.4 SPECIALTY BLADES & GUARDS (GR-025 → GR-027)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-025	Specialty Trimming Blade	Designed for sanitary and paw trimming.	Narrow blade	Stainless steel	Close-cut
GR-026	Blade Guards / Blade Combs	Controls coat length during clipping.	Snap-on guards	Plastic	Multiple length options
GR-027	Adjustable Guard Set	Set of guards for variable coat lengths.	Multi-piece set	Plastic	Color-coded

2.5 CLIPPER MAINTENANCE (GR-028 → GR-030)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-028	Blade Oil	Lubricates clipper blades to reduce friction and wear.	Dropper bottle	Oil blend	Professional grade
GR-029	Blade Cleaning Spray	Removes hair and debris from blades.	Spray bottle	Cleaning solution	Fast-dry
GR-030	Blade Cooling Spray	Reduces blade heat during prolonged use.	Aerosol	Cooling compound	Non-residue

3. BRUSHES & COAT TOOLS

SLICKER & PIN BRUSHES

BRISTLE & COMBINATION BRUSHES

3.1 SLICKER & PIN BRUSHES (GR-031 → GR-034)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-031	Slicker Brush (Soft)	Fine wire pins for gentle detangling and finishing.	Small / Medium	Stainless Steel pins	Soft pin density
GR-032	Slicker Brush (Medium)	General-purpose detangling and coat preparation.	Medium	Stainless steel pins	Medium pin density
GR-033	Slicker Brush (Firm)	Heavy detangling for dense or matted coats.	Medium / Large	Stainless steel pins	Firm pin density
GR-034	Pin Brush	Coat smoothing and finishing on long coats.	Medium	Stainless steel pins	Rounded pin tips

3.2 BRISTLE & COMBINATION BRUSHES (GR-035 → GR-037)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-035	Bristle Brush	Finishing brush for coat shine and debris removal.	Medium	Natural/ synthetic bristles	Soft or firm
GR-036	Combination Brush	Dual-surface brush for detangling and finishing.	Medium	Mixed bristles	Pin + bristle
GR-037	Rubber Grooming Brush	Massage and loose hair removal.	Handheld	Rubber	Anti-slip grip

UNDERCOAT & SHEDDING TOOLS

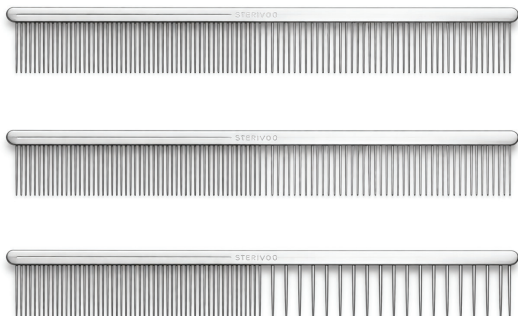

3.3 UNDERCOAT & SHEDDING TOOLS (GR-038 → GR-041)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-038	Undercoat Rake (Single Row)	Removal of loose undercoat on dense coats.	Standard	Stainless Steel teeth	Rounded tips
GR-039	Undercoat Rake (Double Row)	Enhanced undercoat removal for heavy shedding.	Wide head	Stainless steel teeth	Dual row
GR-040	Shedding Blade	Loose hair removal during coat change.	Loop style	Stainless steel	Adjustable tension
GR-041	Deshedding Tool	Controlled undercoat thinning.	Ergonomic	Stainless steel	Fine edge

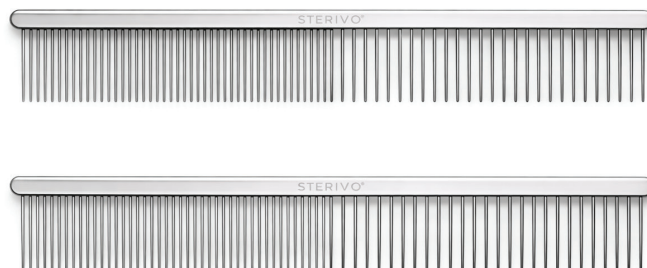

3.4 SPECIALTY COAT TOOLS (GR-042 → GR-043)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-042	Carding Tool	Fine undercoat removal without cutting topcoat.	Narrow head	Stainless steel	Breed- specific use
GR-043	Rubber Coat Tool	Loose hair removal on short coats.	Palm style	Rubber	Flexible surface

4. COMBS & DEMATting TOOLS

GROOMING COMBS

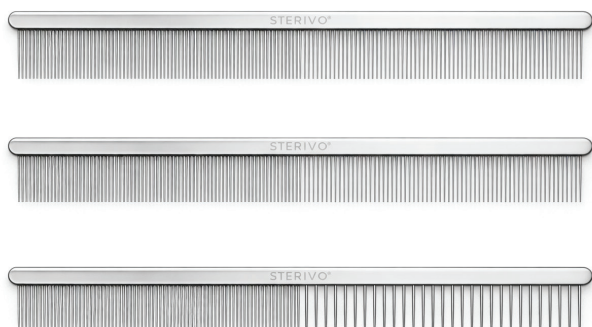

BRISTLE & COMBINATION BRUSHES

4.1 GROOMING COMBS (GR-044 → GR-047)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-044	Stainless Steel Grooming Comb (Fine)	Fine-tooth comb for finishing and detail work.	7" (18 cm)	Stainless Steel	Fine tooth spacing
GR-045	Stainless Steel Grooming Comb (Medium)	General-purpose comb for coat preparation.	7.5" (19 cm)	Stainless steel	Medium spacing
GR-046	Stainless Steel Grooming Comb (Coarse)	Detangling of thicker or longer coats.	7.5" (19 cm)	Stainless Steel	Wide spacing
GR-047	Combination Grooming Comb	Dual fine/coarse teeth for versatile grooming.	7.5" (19 cm)	Stainless steel	Dual-tooth layout

4.2 FLEA & SPECIALTY COMBS (GR-048 → GR-049)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-048	Flea Comb	Close-set teeth for parasite detection and removal.	Narrow head	Stainless steel	Ultra-fine spacing
GR-049	Facial Detail Comb	Precision combing around eyes and muzzle.	Compact	Stainless steel	Rounded tips

DEMATTING TOOLS

BRISTLE & COMBINATION BRUSHES

4.3 DEMATTING TOOLS (GR-050 → GR-053)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-050	Dematting Comb	Loosens tangles and light mats.	Standard	Stainless Steel	Rounded teeth
GR-051	Dematting Rake	Removes moderate matting and undercoat.	Multi-tooth	Stainless steel	Angled teeth
GR-052	Dematting Cutter (Fixed Blade)	Cuts through dense matting safely.	Fixed blade	Stainless steel	Safety edge
GR-053	Dematting Cutter (Rotating Blade)	Controlled cutting through heavy mats.	Rotating blades	Stainless steel	Multi-blade design

4.4 HAND-STRIPPING & HEAVY UNDERCOAT TOOLS (GR-054 → GR-056)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-054	Stripping Knife (Fine)	Hand-stripping of wire-haired coats.	Narrow blade	Stainless Steel	Fine grain
GR-055	Stripping Knife (Medium)	Controlled coat stripping for terrier breeds.	Medium blade	Stainless steel	Medium grain
GR-056	Coat King-Style Undercoat Tool	Heavy undercoat thinning for dense coats.	Multi-tooth	Stainless steel	Replaceable blades

5. NAIL CARE INSTRUMENTS

NAIL CLIPPERS

HEMOSTASIS & NAIL SAFETY

NAIL GRINDING & FINISHING

5.1 NAIL CLIPPERS (GR-057 → GR-059)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-057	Guillotine-Style Nail Clipper	Controlled nail trimming with replaceable blade.	Standard	Stainless Steel	Small/medium sizes
GR-058	Scissor-Style Nail Clipper	Direct cutting action for routine nail care.	Standard	Stainless steel	Curved blade
GR-059	Heavy-Duty Nail Clipper	Increased leverage for thick or large-breed nails.	Large	Stainless steel	Reinforced handles

5.2 NAIL GRINDING & FINISHING (GR-060 → GR-062)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-060	Electric Nail Grinder	Gradual nail shortening and smoothing.	Handheld	Composite housing	Variable speed
GR-061	Grinder Replacement Heads	Replacement grinding tips for nail grinder.	Assorted	Abrasive material	Fine / medium grit
GR-062	Nail Finishing File	Manual smoothing of nail edges after trimming.	Flat file	Stainless steel	Fine texture

5.3 HEMOSTASIS & NAIL SAFETY (GR-063 → GR-064)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-063	Styptic Powder	Controls minor bleeding during nail trimming.	Container	Mineral compound	Professional use
GR-064	Styptic Pencil	Targeted bleeding control for nail care.	Pencil form	Mineral compound	Single-use tip

6. EAR, EYE & HYGIENE TOOLS

EAR CARE INSTRUMENTS

EYE & FACIAL HYGIENE

6.1 EAR CARE INSTRUMENTS (GR-065 → GR-067)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-065	Ear Cleaning Forceps	Controlled removal of debris and hair from ear canal.	Standard	Stainless Steel	Serrated tips
GR-066	Hemostats (Straight)	Precise gripping for ear hair plucking and hygiene tasks.	5.5" (14 cm)	Stainless steel	Straight jaws
GR-067	Hemostats (Curved)	Improved access and control in ear and facial areas.	5.5" (14 cm)	Stainless steel	Curved jaws

6.2 EYE & FACIAL HYGIENE (GR-068 → GR-069)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-060	Eye Cleaning Tool	Gentle cleaning around eyes and tear ducts.	Compact	Stainless steel/plastic	Rounded edges
GR-069	Tear Stain Removal Comb	Fine-tooth comb for removal of tear staining.	Narrow head	Stainless steel	Ultra-fine teeth

GENERAL HYGIENE TOOLS

OPTIONAL CONSUMABLES

6.3 GENERAL HYGIENE TOOLS (GR-070 → GR-072)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-070	Cotton Applicator Holder	Secure holding of cotton applicators for hygiene tasks.	Standard	Stainless steel	Autoclavable
GR-071	Grooming Wipes	Surface cleaning for coat and skin hygiene.	Packaged wipes	Non-woven fabric	Professional use
GR-072	Anal Gland Expression Tool (External) Dematting Rake	Assists in external gland expression procedures.	Handheld	Stainless steel	Ergonomic grip

6.4 OPTIONAL CONSUMABLES (GR-073)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-073	Ear Plucking Powder	Improves grip and hygiene during ear hair removal.	Container	Powder compound	Professional use

7. BATHING & DRYING ACCESSORIES

BATHING TOOLS

DRYING EQUIPMENT

WATER CONTROL ACCESSORIES

7.1 BATHING TOOLS (GR-074 → GR-076)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-074	Grooming Bath Brush	Manual brushing during bathing to loosen dirt and hair.	Handheld	Plastic / rubber	Soft or firm bristles
GR-075	Shampoo Mixing Bottle	Dilution and controlled dispensing of grooming shampoos.	Squeeze bottle	Plastic	Ratio markings
GR-076	Grooming Spray Bottle	Application of water or grooming solutions.	Trigger spray	Plastic	Adjustable nozzle

7.2 DRYING EQUIPMENT (GR-077 → GR-079)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-077	Forced-Air Dryer	High-velocity drying for coat preparation and finishing.	Floor/handheld unit	Composite housing	Variable airflow
GR-078	Professional Grooming Towel	Absorbent towel for initial drying.	Large format	Cotton blend	High absorbency
GR-079	Microfiber Drying Towel	Rapid moisture absorption for finishing.	Large format	Microfiber	Quick-dry

7.3 WATER CONTROL ACCESSORIES (GR-080 → GR-081)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-080	Hose Attachment / Sprayer	Controlled water flow during bathing.	Handheld sprayer	Plastic / metal	Adjustable spray patterns
GR-081	Water Flow Regulator	Controls water pressure for safe bathing.	Inline device	Metal / plastic	Pressure adjustment

8. BATHING STATIONS & SYSTEMS

BATHING TOOLS

8.1 PROFESSIONAL GROOMING TUBS (GR-082 → GR-085)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-082	Professional Grooming Tub (Wall-Mount)	Fixed wall-mounted tub for efficient clinic grooming workflows.	Standard depth	Stainless steel	Left/right drain options
GR-083	Professional Grooming Tub (Free-Standing)	Standalone grooming tub for flexible placement.	Full-size	Stainless steel	Adjustable legs
GR-084	Grooming Tub with Ramp	Integrated ramp for large or mobility-limited animals.	Extended length	Stainless steel	Non-slip ramp
GR-085	Compact Grooming Tub	Space-saving tub for mobile or small clinics.	Compact	Stainless steel	Reduced footprint

9. GROOMING RESTRAINT & SAFETY

GROOMING LOOPS & LEADS

TABLE-MOUNTED RESTRAINT SYSTEMS

9.1 GROOMING LOOPS & LEADS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-086	Grooming Loop	Adjustable loop for securing animals during grooming.	Standard length	Nylon	Adjustable slide
GR-087	Adjustable Grooming Lead	Lead for controlled restraint on grooming tables.	Long	Nylon	Padded neck area
GR-088	Safety Grooming Loop	Quick-release loop for added safety.	Standard	Nylon	Emergency release clip

9.2 TABLE-MOUNTED RESTRAINT SYSTEMS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-089	Grooming Table Arm	Vertical arm for attaching grooming loops.	Clamp-mounted	Stainless steel	Height adjustable
GR-090	Crossbar Grooming Restraint	Dual-point restraint for improved stability.	Crossbar system	Stainless steel	Adjustable width
GR-091	Dual-Arm Grooming System	Multi-point restraint for active animals.	Dual-arm	Stainless steel	Locking joints

MUZZLES & HARNESS RESTRAINTS

9.3 MUZZLES & HARNESS RESTRAINTS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-092	Grooming Muzzle (Nylon)	Soft restraint for short grooming procedures.	Assorted sizes	Nylon	Adjustable straps
GR-093	Grooming Muzzle (Basket)	Ventilated muzzle for extended procedures.	Rigid frame	Plastic	Bite-safe design
GR-094	Grooming Harness Restraint	Full-body restraint for added control.	Adjustable	Nylon	Padded contact points

10. GROOMING TABLES & SUPPORT

GROOMING TABLES

TABLE ACCESSORIES

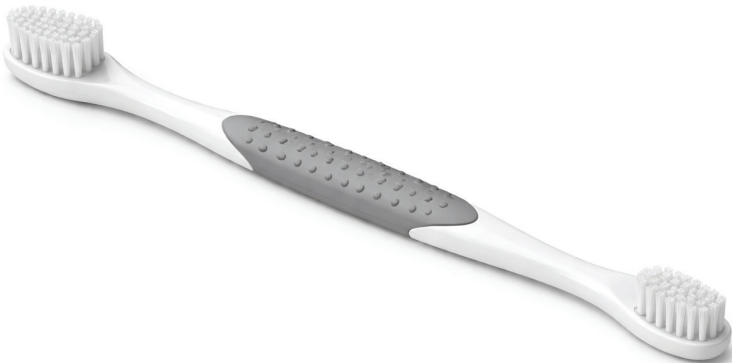

10.1 GROOMING TABLES (GR-095 → GR-098)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-095	Grooming Table (Fixed Height)	Stable fixed-height table for routine grooming procedures.	Standard	Stainless steel / composite	Non-slip surface
GR-096	Grooming Table (Hydraulic)	Height-adjustable table for ergonomic operation.	Full-size	Stainless steel	Foot-pedal hydraulic lift
GR-097	Grooming Table (Electric)	Motorized height adjustment for precision positioning.	Full-size	Stainless steel	Electric lift system
GR-098	Compact Grooming Table	Space-saving table for mobile or small clinics.	Compact	Composite	Foldable design

10.2 TABLE ACCESSORIES (GR-099 → GR-101)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-099	Non-Slip Grooming Mat	Surface mat to prevent slipping during grooming.	Cut-to-fit	Rubber	Textured surface
GR-100	Grooming Table Pad	Cushioned pad for patient comfort.	Standard	Foam /vinyl	Easy-clean cover
GR-101	Anti-Fatigue Grooming Mat	Floor mat to reduce operator fatigue.	Large	Foam	Shock-absorbing

11. DENTAL & ORAL HYGIENE (GROOMING LEVEL)

ORAL CARE INSTRUMENTS

11.1 ORAL CARE INSTRUMENTS (GR-102 → GR-104)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-102	Pet Toothbrush	Manual brushing for routine oral hygiene.	Dual-head	Plastic /nylon	Soft bristles
GR-103	Finger Toothbrush	Direct control for small breeds or sensitive patients.	Finger-mounted	Silicone	Flexible design
GR-104	Grooming Tooth Scaler (Non- Surgical)	Surface plaque removal during grooming procedures.	Single-ended	Stainless steel	Blunt tip; non-surgical use

12. SAFETY, APPAREL & EXTRAS

GROOMER SAFETY & APPAREL

PARASITE & SAFETY TOOLS

12.1 GROOMER SAFETY & APPAREL (GR-105 → GR-107)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-105	Waterproof Grooming Apron	Protects groomer clothing during bathing and grooming.	Full-length	PVC/coated fabric	Adjustable neck and waist
GR-106	Protective Grooming Gloves	Hand protection during grooming and restraint tasks.	Assorted sizes	Nitrile / latex-free	Textured grip
GR-107	Bite-Resistant Grooming Gloves	Added protection for handling reactive animals.	Extended cuff	Reinforced fabric	Cut-and puncture-resistant

12.2 PARASITE & SAFETY TOOLS (GR-108 → GR-109)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-108	Tick Removal Tool	Safe removal of ticks without skin trauma.	Handheld	Plastic / stainless steel	Slotted tip
GR-109	Flea Removal Tool	Manual removal of fleas and debris from coat.	Narrow head	Plastic	Ergonomic handle

13. ACCESSORIES & TOOL MAINTENANCE

TOOL CARE & MAINTENANCE

STORAGE & ORGANIZATION

DISINFECTION & SUPPORT

13.1 TOOL CARE & MAINTENANCE (GR-110 → GR-112)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-110	Shear Oil	Lubricates grooming shears to reduce friction and wear.	Dropper bottle	Oil blend	Professional grade
GR-111	Shear Cleaning Cloth	Cleaning cloth for routine blade maintenance.	Lint-free cloth	Microfiber	Reusable
GR-112	Blade Cleaning Tray	Tray for soaking and cleaning clipper blades.	Shallow tray	Stainless steel	Non-slip base

13.2 STORAGE & ORGANIZATION (GR-113 → GR-116)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-113	Grooming Tool Storage Case	Protective case for organizing grooming tools.	Hard case	Plastic	Lockable
GR-114	Grooming Tool Roll	Roll-up organizer for portable tool storage.	Fabric roll	Canvas	Multiple pockets
GR-115	Blade Storage Rack	Organized storage for detachable clipper blades.	Wall or counter mount	Metal	Multi-slot
GR-116	Blade Storage Box	Compact storage for blades during transport.	Box	Plastic	Foam insert

13.3 DISINFECTION & SUPPORT (GR-117 → GR-118)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-117	Disinfectant Tray	Tray for disinfecting grooming instruments.	Shallow tray	Stainless steel	Autoclavable
GR-118	Grooming Tool Roll	Absorbent mat for air-drying tools post-cleaning.	Flat mat	Silicone	Heat-resistant

14. GROOMING KITS (PRE-CONFIGURED)

CORE GROOMING KITS

SPECIALTY GROOMING KITS

PROCEDURE-SPECIFIC KITS

14.1 CORE GROOMING KITS (GR-119 → GR-121)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-119	Basic Grooming Kit	Essential grooming tools for routine coat maintenance.	Starter set	Mixed materials	Shears, brush, comb, nail clippers
GR-120	Professional Grooming Kit	Expanded kit for full professional grooming procedures.	Full set	Mixed materials	Includes thinning shears and clipper
GR-121	Veterinary In-Clinic Grooming Kit	Grooming kit tailored for veterinary clinic use.	Clinical set	Mixed materials	Hygiene and restraint tools included

14.2 SPECIALTY GROOMING KITS (GR-122 → GR-123)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-122	Mobile Grooming Kit	Portable kit for mobile or field grooming services.	Compact	Mixed materials	Travel-ready case
GR-123	Large Breed Grooming Kit	Kit designed for dense or large-breed coats.	Heavy-duty set	Mixed materials	Wide blades and heavy tools

14.3 PROCEDURE-SPECIFIC KITS (GR-124 → GR-126)

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
GR-124	Nail Care Kit	Dedicated kit for nail trimming and finishing.	Compact	Mixed materials	Clippers, grinder, styptic
GR-125	Clipper & Blade Kit	Clipper unit with detachable blade selection.	Equipment set	Mixed materials	Multiple blade sizes
GR-126	Hygiene & Ear Care Kit	Tools for ear, eye, and hygiene procedures.	Compact	Mixed materials	Hemostats and ear tools
