

STERIVIO®

Professional Veterinary Instruments

Precision-engineered surgical, diagnostic, and procedural instruments designed to support modern veterinary practice.

For Veterinary Clinics & Professional Use

About Sterivio

Sterivio provides professional-grade veterinary instruments engineered to support the daily demands of modern clinical practice. Our product range spans surgical, diagnostic, and procedural applications across small animal, large animal, and specialty veterinary disciplines, delivering reliable performance in both routine and advanced cases.

Each Sterivio instrument is selected and manufactured with a focus on precision, durability, and consistency. By combining medical-grade materials with clinician-driven design, our instruments are built to provide dependable handling, long service life, and consistent clinical performance in professional veterinary environments.

Catalog Structure

This catalog is organized by clinical discipline to support fast navigation and accurate procurement. All instrument listings follow a standardized format for clarity and consistency.

Quality & Materials

Sterivio instruments are primarily manufactured using medical-grade stainless steel alloys, including AISI 410, AISI 420, and AISI 440A, selected for strength, corrosion resistance, and suitability for repeated sterilization.

- Select instruments are available with Tungsten Carbide (TC) inserts to enhance cutting performance, gripping strength, and overall service life in high-use clinical settings.
- Alternate materials, finishes, and configurations may be supplied based on clinical requirements.

Customization & Kits

Sterivio offers both individual instruments and pre-configured specialty kits to support standardized workflows and procedural efficiency. Kit contents represent commonly used configurations and may be customized based on clinical preference, procedure type, or institutional requirements.

Standard kit contents are detailed in Appendix A, with expanded and customized options available upon request.

Intended Use

This catalog is intended for professional veterinary use by:

-  Veterinary clinics and hospitals
-  Educational and training institutions
-  Surgical and referral centers
-  Procurement and supply management teams

All instruments are supplied for use by trained veterinary professionals.

Using This Catalog

This catalog is designed to support efficient product selection and procurement for veterinary surgical, diagnostic, and procedural applications across small animal, large animal, and specialty clinical disciplines. Instruments are organized by clinical category and procedural function, with standardized listings to support comparison, specification review, and purchasing decisions in professional veterinary environments. Pre-configured surgical and procedural kits are included to support commonly performed procedures and standardized clinical workflows.

This catalog is intended for use by trained veterinary professionals. For assistance with product selection, kit configuration, or institutional procurement, Sterivio ordering support is available via the contact information provided.

Ordering support

Ordering support is available for individual instruments, pre-configured kits, customized grooming or surgical sets, and institutional procurement.

Ordering support is available for individual instruments, pre-configured kits, customized grooming or surgical sets, and institutional procurement.

Important Notice

*Product availability may vary by region.
Specifications are subject to change without notice.*

Ordering & Contact Information

Sterivio instruments are available through direct inquiry and approved procurement channels. For product availability, pricing, customized kits, or bulk orders, please contact Sterivio using the information below.

1 - GENERAL SURGERY

Sterivio's General Surgery instruments are designed to support the full range of routine and advanced veterinary surgical procedures. This section includes essential cutting, grasping, clamping, suturing, and retracting instruments used across soft tissue, abdominal, and general operative applications. Instruments are organized by functional category to support efficient selection, standardized workflows, and reliable performance in daily clinical practice.

SCALPELS & BLADES

SURGICAL SCISSORS

1.1 SCALPELS & BLADES

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 001	No. 3 Scalpel Handle	Standard handle for small-animal blades (#10–15).	4.5" (11.4 cm)	AISI 410	4–5" (10–13 cm) straight
ST- 002	No. 4 Scalpel Handle	Handle for #20–24 blades; general soft tissue.	5.5" (14 cm)	AISI 410	5–6" (12–15 cm) straight
ST- 003	No. 7 Scalpel Handle	Slim extended handle for deep/narrow incisions.	6.5" (16.5 cm)	AISI 410	6–7" (15–18 cm) straight.
ST- 004	Scalpel Blades #10–24	Sterile disposable blades for skin/soft tissue.	Assorted	Carbon steel	#10–24 range

1.2 SURGICAL SCISSORS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 005	Operating Scissors (SB/BB/SS)	General-purpose dissection.	5.5" (14 cm) Straight	AISI 420	4–5" (10–13 cm) straight
ST- 006	Mayo Scissors	Heavy cutting of fascia/sutures.	6.75" (17 cm) Curved	AISI 420	5–6" (12–15 cm) straight
ST- 007	Metzenbaum Scissors	Fine dissection in delicate areas.	7" (18 cm) Curved	AISI 420	6–7" (15–18 cm) straight.
ST- 008	Iris Scissors	Micro cutting for ocular/suture work.	4.5" (11.4 cm) Straight	AISI 440A	#10–24 range
ST- 009	Tenotomy Scissors	Slim scissor for tendon/fine work.	4.5" (11.4 cm) Curved	AISI 420	#10–24 range
ST- 010	Potts Scissors	Angled vascular trimming.	6" (15 cm) 25°	AISI 420	5.5–7" (14–18 cm) 25°/45°.

HEMOSTATIC FORCEPS

TISSUE FORCEPS

1.3 HEMOSTATIC FORCEPS

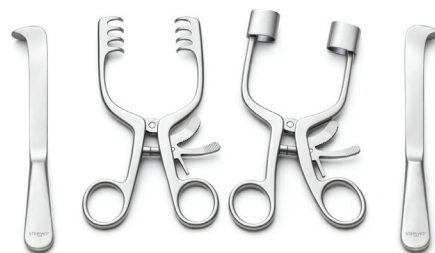

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 011	Mosquito Hemostat	Fine clamp for small vessels.	5" (12.5 cm) Curved	AISI 420	4–5.25" (10–13 cm) straight/curved.
ST- 012	Kelly Hemostat	Medium vessel clamp.	5.5" (14 cm) Curved	AISI 420	5.5–6.25" (14–16 cm) straight/curved.
ST- 013	Crile Hemostat	Full serrations for deeper field.	5.5" (14 cm) Curved	AISI 420	5.5–6.25" (14–16 cm) straight/curved.
ST- 014	Rochester-Pean	Heavy clamp for thick tissue.	6.25" (16 cm) Curved	AISI 420	6.25–8" (16–20 cm) straight/curved.
ST- 015	Rochester-Carmalt	Spay pedicle clamp.	6.25" (16 cm) Curved	AISI 420	6.25–8" (16–20 cm) straight/curved.
ST- 016	Kocher Forceps	Toothed grasping clamp.	5.5" (14 cm) Straight	AISI 420	5.5–7" (14–18 cm) straight/curved.
ST- 017	Mixer (Right Angle)	Vessel access around structures.	5.5" (14 cm)	AISI 420	5.5–6.25" (14–16 cm).
ST- 018	Bulldog Clamp	Atraumatic vascular clamp.	2" (5 cm)	AISI 420	1.5–2.75" (4–7 cm).

1.4 TISSUE FORCEPS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 019	Adson Forceps	Precision skin/tissue handling.	4.75" (12 cm)	AISI 410	4–5.5" (10–14 cm) 1×2/plain.
ST- 020	Brown-Adson Forceps	Multi-tooth traction.	4.75" (12 cm)	AISI 410	4–5.5" (10–14 cm).
ST- 021	DeBakey Forceps	Atraumatic vascular handling.	5.5" (14 cm)	AISI 410	4.75–6.25" (12–16 cm).
ST- 022	Dressing Forceps	Packing/dressing use.	5.5" (14 cm)	AISI 410	4.75–6.25" (12–16 cm) smooth/serrated.
ST- 023	Rat-Tooth Forceps	Firm grasp on dense tissue.	5.5" (14 cm)	AISI 410	4.75–6.25" (12–16 cm).
ST- 024	Ferris-Smith Forceps	Broad grip for medium tissues.	6" (15 cm)	AISI 410	5–6.25" (12–16 cm).

NEEDLE HOLDERS

RETRACTORS

1.5 NEEDLE HOLDERS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 025	Mayo-Hegar	Heavy suturing	5.5" (14 cm)	AISI 420	5.5-7" (14-18 cm) TC/standard.
ST- 026	Olsen Hegar	Needle holder + scissors.	5.5" (14 cm)	AISI 420	5.5-7" (14-18 cm).
ST- 027	Crile-Wood	Fine suturing control.	5.5" (14 cm)	AISI 420	4.75-6.25" (12-16 cm).
ST- 028	Mathieu	Spring-handle suturing.	5" (12.7 cm)	AISI 420	4.5-5.5" (11-14 cm).

1.6 RETRACTORS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 029	Senn Retractor	Small double-ended rake.	5.5" (14 cm)	AISI 410	4.75-6.25" (12-16 cm) sharp/dull.
ST- 030	Army Navy Retractor	Double-ended shallow retraction.	6" (15 cm)	AISI 410	5.5-7" (14-18 cm).
ST- 031	Volkman Retractor	L-shaped deep retractor.	6" (15 cm)	AISI 410	5.5-7" (14-18 cm) narrow/wide.
ST- 032	Deaver Retractor	Curved organ retraction.	8" (20 cm)	AISI 410	6-10" (15-25 cm).
ST- 033	Richardson Retractor	Large soft tissue exposure.	9" (23 cm)	AISI 410	8-10" (20-25 cm).
ST- 034	Langenbeck Retractor	Periosteal/small exposure.	6.5" (16.5 cm)	AISI 410	5.5-8" (14-20 cm).
ST- 035	Gelpi Retractor	Self-retaining hook.	5.5" (14 cm)	AISI 410	5-6.25" (12-16 cm).
ST- 036	Weitlaner Retractor	Self-retaining rake.	5.5" (14 cm)	AISI 410	5-6.25" (12-16 cm) blunt/sharp.

CLAMPS, GRASPERS & OTHERS

MINOR INSTRUMENTS

1.7 CLAMPS, GRASPERS & OTHERS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 037	Backhaus Towel Clamp	Draping fixation.	3.5" (9 cm)	AISI 410	3-4.25" (8-11 cm).
ST- 038	Jones Towel Clamp	Lightweight spring clamp.	3.5" (9 cm)	AISI 410	3-4.25" (8-11 cm).
ST- 039	Sponge Forceps	Holding gauze/packing.	5.5" (14 cm)	AISI 410	5-6.25" (12-16 cm) straight/curved.
ST- 040	Lahey Sponge Forceps	Angled deep sponge handling.	6" (15 cm)	AISI 410	5.5-7" (14-18 cm).
ST- 041	Doyen Intestinal Forceps	Atraumatic bowel clamping.	6" (15 cm)	AISI 410	5.5-7" (14-18 cm).
ST- 042	Allis Tissue Forceps	Firm grip on fascia/muscle.	6" (15 cm)	AISI 410	5.5-7" (14-18 cm).
ST- 043	Babcock Forceps	Atraumatic grasping of bowel/tissue.	6" (15 cm)	AISI 410	5.5-7" (14-18 cm).
ST- 044	Foerster Forceps	Round tips for wiping/holding.	5.5" (14 cm)	AISI 410	5-6.25" (12-16 cm) straight/curved.

1.8 MINOR INSTRUMENTS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 045	Grooved Director	Guides probes & incisions.	6" (15 cm)	AISI 410	5.5-7" (14-18 cm).
ST- 046	Probe	Exploring tracts/cavities.	6" (15 cm)	AISI 410	5.5-7" (14-18 cm).
ST- 047	Needle Counter	Tracks needles in OR.	Standard	Plastic	Standard sizes.
ST- 048	Blade Remover	Safe blade disposal.	Standard	Plastic	Universal.

TUNGSTEN CARBIDE LINE

RETRACTORS

1.9 TUNGSTEN CARBIDE LINE

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 049	Finochietto Rib Spreader	Thoracic spreading.	10" (25.4 cm)	AISI 410	8-12" (20-30 cm).
ST- 050	TC Metzenbaum/ Mayo	Long-life cutting scissors.	7" (18 cm)	AISI 420 + TC	5.5-8" (14-20 cm) straight/curved.
ST- 051	TC Needle Holders	Carbide jaws for suturing.	5.5" (14 cm)	AISI 420 + TC	5.5-7" (14-18 cm).

2 - SPAY / SOFT TISSUE SURGERY

1.6 RETRACTORS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 052	Spay Hook	Locates uterine horn during OHE.	9" (23 cm)	AISI 410	8-10" (20-25 cm).
ST- 053	Rochester-Carmalt	Pedicle clamp for ligation control.	6.25" (16 cm) Curved	AISI 420	6.25-8" (16-20 cm) straight/curved.
ST- 054	Mosquito Hemostat	Fine clamp for small vessels.	5" (12.5 cm) Curved	AISI 420	4-5.25" (10-13 cm) straight/curved.
ST- 055	Kelly Hemostat	Medium vessel clamp.	5.5" (14 cm) Curved	AISI 420	5.5-6.25" (14-16 cm) straight/curved.
ST- 056	Mayo-Hegar Needle Holder	Standard suturing tool for OHE.	6" (15 cm)	AISI 420	5.5-7" (14-18 cm).
ST- 057	Metzenbaum Scissors	Fine soft-tissue dissection.	7" (18 cm) Curved	AISI 420	5.5-8" (14-20 cm) straight/curved.
ST- 058	Adson-Brown Forceps	Skin/tissue traction with multiple teeth.	4.75" (12 cm)	AISI 410	4-5.5" (10-14 cm).

SOFT TISSUE HANDLING FORCEPS

VASCULAR & SPECIALTY INSTRUMENTS

2.2 SOFT TISSUE HANDLING FORCEPS

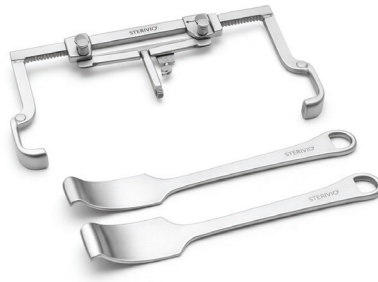

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 059	Allis Tissue Forceps	Secure traction of fascia/tissue.	6" (15 cm)	AISI 410	5.5-7" (14-18 cm).
ST- 060	Babcock Forceps	Atraumatic grasping of bowel/soft tissue.	6" (15 cm)	AISI 410	5.5-7" (14-18 cm).
ST- 061	Doyen Intestinal Forceps	Atraumatic bowel occlusion.	6" (15 cm)	AISI 410	5.5-7" (14-18 cm).
ST- 062	DeBakey Forceps	Atraumatic vascular/soft-tissue handling.	5.5" (14 cm)	AISI 410	4.75-6.25" (12-16 cm).
ST- 063	Adson Forceps (1x2)	Precise skin handling for closure.	4.75" (12 cm)	AISI 410	4-5.5" (10-14 cm).

2.3 VASCULAR & SPECIALTY INSTRUMENTS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 064	Satinsky Clamp	Partial occlusion clamp for vessels.	7" (18 cm)	AISI 420	6-7.5" (15-19 cm).
ST- 065	Mixer (Right-Angle)	Vessel isolation & ligature placement.	5.5" (14 cm)	AISI 420	5.5-6.25" (14-16 cm).
ST- 066	Bulldog Clamp	Temporary vascular occlusion.	2" (5 cm)	AISI 420	1.5-2.75" (4-7 cm).
ST- 067	Potts Scissors	Vascular trimming scissors.	6" (15 cm) 25°	AISI 420	5.5-7" (14-18 cm) 25°/45°.
ST- 068	Hemoclip Applicator	Applies vessel ligation clips.	Standard	AISI 410	Small/medium/ large clip sizes.

SMALL SELF-RETAINING RETRACTORS

MAJOR SOFT-TISSUE RETRACTORS

SPECIALTY SOFT TISSUE TOOLS

2.4 SMALL SELF-RETAINING RETRACTORS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 069	Gelpi Retractor (Small)	Self-retaining, ideal for small OHE incisions.	4.5" (11 cm)	AISI 410	4.5–5.5" (11–14 cm).
ST- 070	Weitlaner Retractor (Small)	Self-retaining rake for soft tissue.	5" (12.5 cm)	AISI 410	5–6" (12–15 cm) blunt/sharp.

2.5 MAJOR SOFT-TISSUE RETRACTORS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 071	Balfour Retractor	Abdominal retraction for larger incisions.	Small Animal Size	AISI 410	Blade & spreader size range standard.
ST- 072	Malleable Retractor	Bendable retraction for varied approaches.	12" (30 cm)	AISI 410	10-14" (25-35 cm).
ST- 073	Deaver Retractor (Soft Tissue)	Curved organ retractor.	8" (20 cm)	AISI 410	6-10" (15-25 cm).

2.6 SPECIALTY SOFT TISSUE TOOLS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 074	Desjardin Forceps	Removal of stones/material from ducts.	8" (20 cm)	AISI 410	7-9" (18-23 cm).
ST- 075	Knot Pusher	Pushes intracorporeal knots.	Standard	AISI 410	Standard sizes.
ST-	Ligature Carrier	Places ligatures around	Standard	AISI 410	Standard
ST- 076		Deep vessels.			patterns.
ST- 077	Suction Tip -Frazier	Fine surgical suction.	8 Fr	AISI 410	6-10 Fr.
ST- 078	Suction Tip -Yankauer	General soft-tissue suction.	Standard Yankauer	AISI 410	Standard sizes.
ST- 079	Tissue Retractor Hook	Hand-held blunt hook for soft tissue.	6" (15 cm)	AISI 410	5-7" (12-18 cm).
ST- 080	Blunt Dissector	Soft-tissue blunt separation.	7" (18 cm)	AISI 410	6-8" (15-20 cm).

DIAGNOSTIC INSTRUMENTS

SCALERS & CURETTES

3 - DENTAL INSTRUMENTS

3.1 DIAGNOSTIC INSTRUMENTS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 081	Dental Mouth Mirror	Visualization of oral cavity.	#4 Mirror, Standard Handle	AISI 410	#3-#5 mirror sizes.
ST- 082	Explorer	Detects enamel defects & calculus.	6" (15 cm)	AISI 410	5.5-6.5" (14-17 cm).
ST- 083	Williams Probe	Periodontal depth measurement.	6" (15 cm)	AISI 410	5.5-6.5" (14-17 cm).
ST- 084	Periodontal Probe	Gingival sulcus measurement.	6" (15 cm)	AISI 410	5.5-6.5" (14-17 cm).

3.2 SCALERS & CURETTES

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 085	Scalers (H6/H7)	Supragingival calculus removal.	6.5" (16.5 cm)	AISI 440A	6-7" (15-18 cm).
ST- 086	Gracey Curettes (1-14)	Subgingival curettage.	6.5" (16.5 cm)	AISI 440A	6-7" (15-18 cm) full set #1-14.
ST- 087	Columbia Curettes	Universal curettage.	6.5" (16.5 cm)	AISI 440A	6-7" (15-18 cm) patterns.
ST- 088	Universal Scaler/Curette	Dual-ended general scaling.	6.5" (16.5 cm)	AISI 440A	6-7" (15-18 cm).

ELEVATORS

EXTRACTION & LUXATION

3.3 ELEVATORS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 089	Straight Elevator	Luxation prior to extraction.	5" (12.5 cm)	AISI 420	1-6 mm tips; 4.75-5.5" (12-14 cm).
ST- 090	Cryer Elevator	Winged root elevator.	5" (12.5 cm)	AISI 420	4.75-5.5" (12-14 cm).
ST- 091	Coupland Elevator	Difficult luxations.	5" (12.5 cm)	AISI 420	4.75-5.5" (12-14 cm).
ST- 092	Winged Elevator (1-6 mm)	Controlled luxation.	5" (12.5 cm)	AISI 420	1-6 mm tips; 4.75-5.5" (12-14 cm).

3.4 EXTRACTION & LUXATION

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 093	Luxator	Fine sharp PDL cutting.	5" (12.5 cm)	AISI 420	1-5 mm tips; 4.75-5.5" (12-14 cm).
ST- 094	Root Pick	Root fragment retrieval.	5" (12.5 cm)	AISI 420	4.75-5.5" (12-14 cm).
ST- 095	Periotome	Minimal trauma ligament separation.	5" (12.5 cm)	AISI 420	4.75-5.5" (12-14 cm).
ST- 096	Extraction Forceps	Tooth extraction forceps.	6" (15 cm)	AISI 420	5.5-7^ prime prime (14 - 18cm) .
ST- 097	Canine/Incisor Forceps	For incisors & small teeth.	6" (15 cm)	AISI 410	5.5-7^ prime prime (14 - 18cm)

AUXILIARY INSTRUMENTS

ROTARY / PROPHY

3.5 AUXILIARY INSTRUMENTS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 098	College Tweezers	Cotton pellet handling.	6" (15 cm)	AISI 410	5.5-7" (14-18 cm).
ST- 099	Molt #9 Elevator	Periosteal elevation.	7" (18 cm)	AISI 420	6-7.5" (15-19 cm).
ST- 100	Mouth Gag (Small Animal)	Holds mouth open.	Standard SA Size	AISI 410	S/M/L available.
ST- 101	Cheek Retractor	Cheek retraction.	4.75" (12 cm)	AISI 410	4-5.5" (10-14 cm).

3.6 ROTARY / PROPHY

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 102	Prophy Angle	Polishing attachment.	Standard	Plastic/steel	Standard patterns.
ST- 103	Prophy Cups/Brushes	Polishing cups/brushes.	Standard	ubber/nylon	Soft/medium/hard.
ST- 104	Contra-Angle Burs	Cutting/shaping burs.	Standard	Steel/diamond	Full bur range.

3.7 OPERATIVE & ROOT CANAL

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 105	Rubber Dam Forceps	Places dam clamps.	Standard	AISI 410	Standard pattern.
ST- 106	RCT Files/Reamers	Root canal shaping.	Assorted	Steel/NiTi	Full size range.
ST- 107	Endodontic Spreaders	Lateral condensation.	Assorted	AISI 410	Full range.
ST- 108	Diamond/Polish Burs	Polishing & finishing burs.	Assorted	Diamond	Full range.

ELEVATORS & RETRACTORS

CUTTING & SHAPING INSTRUMENTS

4 - ORTHOPEDIC INSTRUMENTS

4.1 ELEVATORS & RETRACTORS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 109	Freer	Double-ended	7" (18 cm)	AISI 420	6-7" (15-18 cm)
ST- 110	Elevator	periosteal elevator for soft tissue/ bone elevation.	Double-ended		Ends: sharp/dull, narrow/wide.
ST- 111	Molt Elevator	Bone elevation and flap reflection.	7" (18 cm)	AISI 420	6-7" (15-18 cm) sharp/dull ends.
ST- 112	Howarth Elevator	Fine periosteal dissection.	7" (18 cm)	AISI 420	6-7" (15-18 cm) tip patterns.
ST- 113	Hohmann Retractor	Bone retraction during orthopedic exposure.	6" (15 cm) Narrow	AISI 410	6-8" (15-20 cm) narrow/wide blades.

4.2 CUTTING & SHAPING INSTRUMENTS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 114	Rongeurs	Bone biting/removal during orthopedic procedures.	5.5" (14 cm) Straight	AISI 420	5.5-7" (14-18 cm) straight/angled; narrow/wide jaws.
ST- 115	Lucas Curette	Curettage of bone and soft tissue.	7" (18 cm)	AISI 410	6-7" (15-18 cm) cup sizes small/medium/ large.
ST- 116	Chisel	Bone shaping and removal with mallet.	6" (15 cm) Straight	AISI 410	6-8" (15-20 cm) widths 4-10 mm.
ST- 117	Osteotome	Bone splitting/cutting.	6" (15 cm)	AISI 410	6-8" (15-20 cm) widths 4-10 mm; straight/curved.
ST- 118	Orthopedic Mallet	Striking chisels & osteotomes.	12 oz Stainless Mallet	AISI 410	10-16 oz; stainless or nylon-faced heads.

CLAMPS & REDUCTION TOOLS

BONE HANDLING & CUTTING

WIRE INSTRUMENTS

4.3 CLAMPS & REDUCTION TOOLS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 119	Verbrugge Forceps	Bone holding/reduction clamp.	7" (18 cm)	AISI 420	7-9" (18-23 cm) serrated jaws.
ST- 120	Lane Bone Holding Forceps	Bone stabilization during plating.	7" (18 cm)	AISI 420	7-9" (18-23 cm) ratcheted; straight/angled.
ST- 121	Speed-Lock Forceps	Holds fractured segments during repair.	7" (18 cm)	AISI 420	7-9" (18-23 cm) locking screw variants.
ST- 122	Reduction Clamp	General fracture reduction.	7" (18 cm)	AISI 420	7-9" (18-23 cm) pointed/blunt tips.
ST- 123	Pointed Reduction Forceps	Precise manipulation of small fragments.	7" (18 cm)	AISI 420	6-7" (15-18 cm) pointed/delicate tips.

4.4 BONE HANDLING & CUTTING

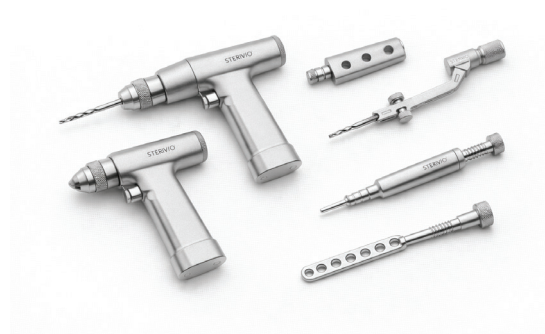

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 124	Bone Lever (Elevator)	Lifts and retracts bone during access.	6" (15 cm)	AISI 410	6-8" (15-20 cm) blade widths.
ST- 125	Liston Bone Cutter	Cuts bone cleanly in orthopedic procedures.	8" (20 cm)	AISI 420	7-9" (18-23 cm) straight/angled.
ST-	Gigli Saw	Flexible saw for.	12" Wire	Stainless	10-20" (25-50 cm) wires; handles
ST- 126		Bone removal.	Saw	wire	straight/angled.
ST- 127	Gigli Saw Handles	Handles for Gigli wire.	Standard Pair	AISI 410	Straight/angled handle patterns.

4.5 WIRE INSTRUMENTS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 128	Wire Passer	Passes orthopedic wire around bone.	6" (15 cm)	AISI 410	6-8" (15-20 cm) curved/straight.
ST- 129	Wire Twister	Twists cerclage wire securely.	6" (15 cm)	AISI 420	6-7" (15-18 cm) with/without cutter.
ST- 130	TC Wire Cutter	Tungsten carbide cutter for orthopedic wire.	7" (18 cm)	AISI 420 TC	6-7" (15-18 cm) TC blades.

MEASUREMENT & FIXATION TOOLS

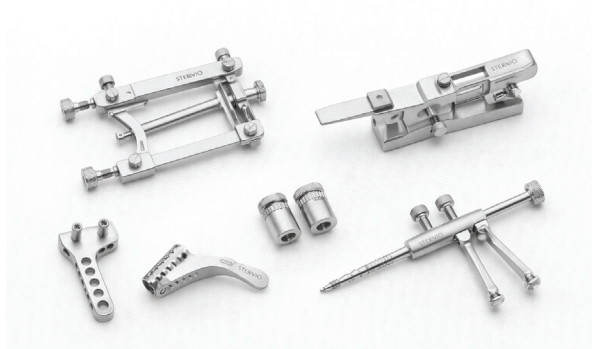

DRILLING & OSTEOSYNTHESIS

4.6 MEASUREMENT & FIXATION TOOLS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 131	Depth Gauge	Measures screw depth during plating.	4" (10 cm)	AISI 410	4-6" (10-15 cm) sizes avail.
ST- 132	Plate Bending Irons	Shapes bone plates prior to fixation.	Small Pair	AISI 410	Small/medium/ large widths.
ST- 133	Screwdrivers	For orthopedic screws (2.0-3.5 mm)	Standard Handle	Stainless steel	Hex, cruciform, star-drive; 2.0-3.5 mm tips.
ST- 134	Tap Handle	Holds taps for screw channel preparation.	Standard	Stainless steel	For 2.0-3.5 mm tap sizes.
ST- 135	AP/ML Drill Guides	Aligns drill angle for plates.	Standard	Stainless steel	Single/double-barrel guides.

4.7 DRILLING & OSTEOSYNTHESIS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 136	Drill Sleeve	Protects soft tissue during drilling.	2.0-2.7 mm	Stainless steel	2.0-3.5 mm sleeves.
ST- 137	Quick Coupling Handle	Manual drill/bit driver.	Standard	Stainless steel	Fits RA and AO couplings.
ST- 138	Plate Holder	Holds plate in position during fixation.	Standard	Stainless steel	Small/medium/ large jaw profiles.
ST- 139	Universal Chuck	Holds drill bits securely.	Standard	Stainless steel	With/without key.
ST- 140	Screw Holding Forceps	Holds screws during insertion.	5" (13 cm)	AISI 410	4.5-5.5" (11-14 cm) straight/angled.

TPLO / TIBIAL PLATEAU LEVELING OSTEOTOMY

4.8 TPLO / TIBIAL PLATEAU LEVELING OSTEOTOMY

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 141	TPLO Saw	Oscillating saw used for tibial cut.	Standard TPLO Saw Handpiece	Stainless steel	Compatible with TPLO blades 18-30 mm radius.
ST- 142	TPLO Saw Blades	Circular blades for plateau rotation.	24 mm Radius	Stainless steel	18, 21, 24, 27, 30 mm radii.
ST- 143	TPLO Plate	Bone plate for TPLO fixation.	3.5 mm Plate Pattern	Titanium/ Stainless	Sizes: 2.7 mm, 3.5 mm, 4.0 mm; left/ right; sizes 5-12 holes.
ST- 144	Locking TPLO Plate	Locking-angle version for stable fixation.	3.5 mm LCP TPLO Plate	Titanium	Sizes: 2.7/3.5/4.0 mm hole patterns; 5-12 holes.
ST- 145	TPLO Jig	Holds tibia during rotation.	Standard Jig	Stainless steel	Small/medium/large jig arms; pin sizes 2.0-3.5 mm.
ST- 146	Rotation Gauge	Measures rotation angle of the plateau.	Standard	Stainless steel	Full rotational scale.

4.8 TTA / TIBIAL TUBEROSITY ADVANCEMENT

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 147	TTA Cage	Advances tibial tuberosity forward.	9 mm Cage	Titanium	Sizes 3-15 mm; open/closed cage
ST- 148	TTA Wedge	Maintains advancement angle.	9 mm Wedge	Titanium	Sizes 3-15 mm; solid/ slotted wedge designs.
ST- 149	TTA Plate	Plate for securing advancement.	2.7 mm TTA Plate	Titanium	Hole counts: 4-10 holes; 2.0, 2.7, 3.5 mm patterns.
ST- 150	TTA Fork	Holds tuberosity fragment during fixation.	Standard Fork	Stainless steel	Fork widths 6-12 mm.
ST- 151	TTA Spreaders	Expands osteotomy gap.	Small Spreader	Stainless steel	Small/medium/ large patterns.
ST- 152	TTA Drill Guide	Aligns drill holes for cage placement.	Standard	Stainless steel	Guides for 2.0, 2.4, 2.7 mm drill bits.

4.8 SCREWS & FIXATION HARDWARE

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 153	Cortical Screws	Screws for TPLO/TTA plating.	3.5 mm Cortical Screw	Stainless/Titanium	Lengths 10-50 mm; 2.0/2.7/3.5 mm diameters.
ST- 154	Locking Screws	Thread-locking screws for LCP plates.	3.5 mm Locking Screw	Titanium	Lengths 10-50 mm; sizes 2.4/2.7/3.5 mm.
ST- 155	Cancellous Screws	For softer metaphyseal bone.	4.0 mm Cancellous Screw	Titanium/Stainless	Lengths 16-40 mm; 3.5/4.0 mm.
ST- 156	Drill Bits	For screw channel preparation.	2.7 mm Bit	Stainless steel	Bit sizes 1.5-3.5 mm; lengths 75-125 mm.
ST- 157	Screw Taps	Prepares thread for screw insertion.	3.5 mm Tap	Stainless steel	Taps for 2.0/2.7/3.5/ 4.0 mm screws.
ST- 158	Drill Sleeves	Protects tissue during drilling.	2.7 mm Sleeve	Stainless steel	Sleeves 2.0, 2.4, 2.7, 3.5 mm.

MICRO SCISSORS

5 - NEUROLOGICAL / MICROSURGERY

5.1 MICRO SCISSORS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 160	Vannas Scissors	Ultra-fine spring scissors for microsurgical cutting.	3.5" (9 cm) Straight	AISI 440A	Straight/curved; 3.25-4" (8-10 cm).
ST- 161	Castroviejo Scissors	Micro spring scissors for ophthalmic/neuro use.	4" (10 cm) Curved	AISI 440A	Straight/curved; 4-4.5" (10-11.5 cm).
ST- 162	Westcott Scissors	Spring-loaded fine dissection scissors.	4" (10 cm) Curved	AISI 440A	Straight/curved; 4-4.5" (10-11.5 cm).

MICRO FORCEPS

MICRO NEEDLE HOLDERS

SUCTION

5.2 MICRO FORCEPS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 163	Jeweler Forceps #3	Ultra-fine tip for precision microsurgery.	4.5" (11.5 cm)	AISI 440A	#3/#5 patterns; straight/curved.
ST- 164	Jeweler Forceps #5	Extra-fine delicate tip for neuro work.	4.5" (11.5 cm)	AISI 440A	#5/#7 patterns; straight/curved.
ST- 165	Micro Atraumatic Forceps	Fine grasping in delicate structures.	4.75" (12 cm)	AISI 440A	Fine/delicate/extra-delicate tips.
ST- 166	Micro Bulldog Clamp	Temporary vascular occlusion.	1.75" (4.5 cm)	AISI 420	1.5-2.75" (4-7 cm) straight/curved.

5.3 MICRO NEEDLE HOLDERS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 167	Castroviejo Needle Holder	Micro suturing for neuro/ophthalmic work.	5.5" (14 cm) Curved	AISI 420 + TC	Straight/curved; 5-6" (13-15 cm).
ST- 168	Barraquer Needle Holder	Fine microsurgical suturing.	5" (13 cm) Straight	AISI 420	Straight/curved; 4.75-5.5" (12-14 cm).
ST- 169	Micro TC Needle Holder	Extra grip for fine sutures.	5" (13 cm)	AISI 420 + TC	TC jaws; 5-6" (13-15 cm).

5.4 SUCTION

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 170	Frazier Micro Suction Tip	Fine suction for neurosurgery.	7 Fr Tip	Stainless steel	5-9 Fr tips; lengths 4-6" (10-15 cm).
ST- 171	Suction Tubing Adapter	Connects micro suction tips to suction units.	Standard	Stainless steel	Universal adapters.

HOOKS & DISSECTORS

RETRACTORS / SPECULA

5.5 MICRO RETRACTORS / SYSTEMS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 172	Leyla Retractor System	Flexible-arm retraction for neurosurgery.	Dual-Arm System	Stainless steel	Arm lengths 8-18" (20-45 cm); blade sets assorted.
ST- 173	Greenberg Retractor	Brain/spinal exposure in microsurgery.	Standard Frame	Stainless steel	Blade sets small/medium/large.
ST- 174	Micro Cerebellar Retractor	Self-retaining small neuro retractor.	4" (10 cm)	AISI 410	4-5" (10-13 cm) blade depths.
ST- 175	Micro Retractor Set	Fine-blade retraction for delicate fields.	Assorted Blades	Stainless steel	Assorted blade widths and angles.

5.6 HOOKS & DISSECTORS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 176	Nerve Hook	Manipulation/isolation of nerves.	6" (15 cm) Single Hook	AISI 410	Single/doublehooks; 5-6" (13-15 cm).
ST- 177	Micro Hook	Ultra-fine hook for small neural structures.	5" (13 cm)	AISI 410	4.5-5.5" (11-14 cm).
ST- 178	Penfield Dissectors (1-5)	Standard brain/spine dissectors.	6.75" (17 cm)	AISI 410	Penfield #1-5 full set.
ST- 179	Spinal Probe	Fine probing of spinal canal.	6" (15 cm)	AISI 410	Straight/curved patterns.

6.1 RETRACTORS / SPECULA

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 180	Barraquer Wire Speculum	Holds eyelids open during ocular procedures.	3/8" Wire Loop	AISI 410	Open/closed wire; 3/8-1/2" (1-1.3 cm) loops.
ST- 181	Graefe Eyelid Retractor	Manual eyelid retraction.	4.25" (11 cm)	AISI 410	4-4.5" (10-11.5 cm) blades.
ST- 182	Desmarres Lid Retractor	Lifts eyelid for inspection or surgery.	20 mm Blade	AISI 410	14, 16, 20, 22 mm blades.
ST- 183	Kalt/Killian Speculum	Adjustable speculum for small animals.	Standard Adjustable	AISI 410	Small/medium large frames.

OPHTHALMIC SCISSORS

OPHTHALMIC KNIVES

OPHTHALMIC FORCEPS

6.2 OPHTHALMIC SCISSORS

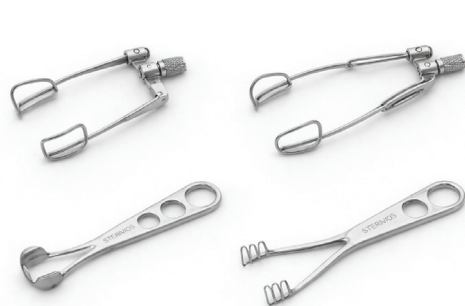

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 184	Iris Scissors	Fine cutting for anterior segment surgery.	4.5" (11.5 cm) Curved	AISI 440A	Straight/curved; 4-4.5" (10-11.5 cm).
ST- 185	Corneal Scissors	Angled blades for corneal dissection.	4.5" (11.5 cm) Angled	AISI 440A	Angled/curved; 4-4.5" (10-11.5 cm).
ST- 186	Westcott Tenotomy Scissors	Fine dissection around delicate tissues.	4" (10 cm)	AISI 440A	Straight/curved; 4-4.5" (10-11.5 cm).

6.3 OPHTHALMIC KNIVES

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 187	Keratome	Knife for corneal incisions.	2.8 mm Blade	Stainless steel	2.2-3.0 mm blade widths.
ST- 188	Crescent Knife	Crescent-shaped blade for lamellar dissection.	2.5 mm Blade	Stainless steel	2.0-3.0 mm widths.
ST- 189	Trephine	Circular cutting blade for corneal grafts.	5 mm Trephine	Stainless steel	4-8 mm trephines.
ST- 190	Ophthalmic Lance Knife	For precise puncture incisions.	Standard	Stainless steel	Assorted blade widths.

6.4 OPHTHALMIC FORCEPS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 191	Bishop- Harmon Forceps	Delicate tissue handling in ocular surgery.	3.5" (9 cm) Toothed	AISI 440A	Toothed/non-toothed; 3.5-4" (9-10 cm).
ST- 192	Bonn Forceps	Microsurgical corneal forceps.	4" (10 cm)	AISI 440A	Straight/curved; 4-4.25" (10-11 cm).
ST- 193	Colibri Forceps	Corneal/iris manipulation with fine teeth.	4" (10 cm)	AISI 440A	1x2 teeth; straight/angled.
ST- 194	McPherson Forceps	Handling lens implants and fine sutures.	4.5" (11.5 cm)	AISI 440A	Straight/curved; 4-4.5"
ST- 195	Tying Forceps	Fine suture manipulation.	4" (10 cm)	AISI 440A	(10-11.5 cm). Straight/curved; extra-delicate tips available.

OPHTHALMIC SCISSORS

OPHTHALMIC KNIVES

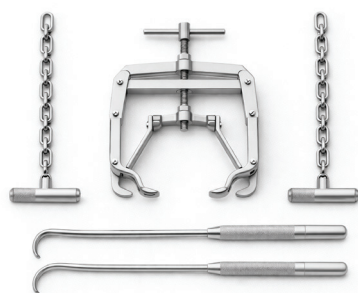

6.5 PROBES / CANNULAS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 196	Bowman Lacrimal Probe	Checks patency of tear ducts.	#0/1 Double-Ended	Stainless steel	Sizes #000-#4
ST- 197	Lacrimal Cannula	Irrigation of lacrimal system.	23G Cannula	Stainless steel	19G-25G sizes; curved/straight.
ST- 198	Punctum Dilator	Dilates lacrimal puncta.	Standard Double- Ended	Stainless steel	Small/medium/ large tips.
ST- 199	Colibri Cannula	Delicate irrigation for corneal surgery.	23G Straight	Stainless steel	23G/25G; straight/ curved.

7 - LARGE ANIMAL

7.1 OBSTETRICAL

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 200	OB Chains	Traction chains for assisted delivery.	60" (152 cm)	Stainless steel	45-72" (115-183 cm); single/double loop
ST- 201	OB Chain Handles	Handles for controlled traction.	Standard loop	Stainless steel	Straight; T-handle
ST- 202	OB Hooks	Manipulation during dystocia.	Blunt tip	Stainless steel	Sharp/blunt; short/ long
ST- 203	OB Snare	Limb/head control during delivery.	72" (183 cm)	Stainless steel	Adjustable loop
ST- 204	Calf Puller	Mechanical assistance for calving.	Ratchet frame	Steel	Manual; ratchet types

FETOTOMY

GYNECOLOGICAL

CASTRATION

7.2 FETOTOMY

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 205	Fetotome	Guided wire cutting during dystocia.	Standard frame	Stainless steel	Long/short patterns
ST- 206	Embryotome	Alternative fetotomy cutting frame.	Standard	Stainless steel	Fixed; adjustable
ST- 207	Fetotomy Wire	Cutting wire for fetotomy procedures.	20 m roll	Stainless steel	0.6-0.8 mm
ST- 208	Torsion Fork	Limb rotation during delivery.	Standard	Stainless steel	Short/long shaft

7.3 GYNECOLOGICAL

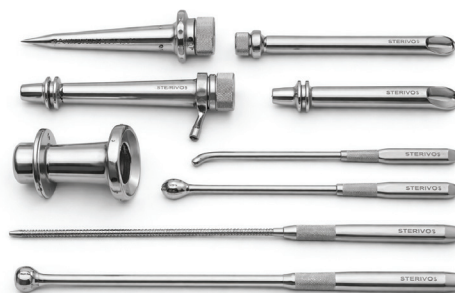

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 209	Vaginal Speculum	Examination and procedures.	Large animal	Stainless steel	Medium; large
ST-210	Uterine Forceps	Uterine manipulation.	12" (30 cm)	Stainless steel	10-16" (25-40 cm)
ST- 211	Buhner Needle	Placement of retention sutures.	14" (36 cm)	Stainless steel	12-18" (30-45 cm)

7.4 CASTRATION

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 212	Emasculator	Crush-cut castration instrument.	18" (46 cm)	Stainless steel	14-20" (36-51 cm); left/right
ST- 213	Elastrator	Bloodless castration.	Standard pliers	Steel	Small; large rings
ST- 214	Castration Knife	Incision for open castration.	Straight blade	Stainless steel	Curved; replaceable blade

HOOF CARE

ADDITIONAL LARGE ANIMAL TOOLS

7.5 HOOF CARE

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 215	Hoof Knife	Trimming and corrective work.	Curved blade	Stainless steel	Left/right; straight/curved
ST- 216	Hoof Nippers	Cutting hoof wall.	15" (38 cm)	Steel	14-18" (36-46 cm)
ST- 217	Hoof Rasp	Leveling and smoothing.	14" (36 cm)	Steel	Coarse; fine
ST- 218	Hoof Tester	Detects sole sensitivity.	Standard	Stainless steel	Narrow; wide jaws
ST- 219	Clincher	Nail bending for shoes.	Standard	Steel	Straight; angled
ST- 220	Pull-Offs	Removal of horseshoes.	Standard	Steel	Narrow; wide jaws

7.6 ADDITIONAL LARGE ANIMAL TOOLS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 221	Trocar & Cannula Set	Relief of bloat.	Large animal	Stainless steel	Small; large diameter
ST- 222	Heavy Hoof Tester	Deep pressure diagnostics.	Heavy-duty	Stainless steel	Long handle

INSTRUMENT ORGANIZATION & STORAGE

CLEANING & DECONTAMINATION

8 - STERILIZATION & INSTRUMENT CARE

8.1 INSTRUMENT ORGANIZATION & STORAGE

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 223	Autoclave Trays	Organizes instruments during sterilization.	Standard perforated	Stainless steel	Small/medium/large; solid/perforated
ST- 224	Instrument Cassettes	Secure instrument holding during processing.	10-12 instrument	Stainless steel	5-20 instrument capacities
ST- 225	Sterilization Baskets	Bulk instrument containment.	Medium basket	Stainless steel	Small/medium/large
ST- 226	Instrument Stringers	Sequential instrument alignment.	Standard 10-pin	Stainless steel	5-20 pin counts
ST- 227	Silicone Mats	Protects tips during sterilization.	Full tray liner	Medical-grade silicone	Half/full tray sizes

8.2 CLEANING & DECONTAMINATION

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 228	Instrument Cleaning Brushes	Manual cleaning of hinges and serrations.	Nylon bristles	Nylon/stainless	Small/medium/large heads
ST- 229	Ultrasonic Baskets	Holds instruments during ultrasonic cleaning.	Standard basket	Stainless steel	Small/medium/large
ST-230	Flush Syringes	Internal lumen flushing.	50 mL	Plastic	20-100 mL
ST- 231	Lumen Cleaning Tips	Directs irrigation into cannulated tools.	Standard tip	Plastic	Straight/angled

PACKAGING & INDICATORS

ACCESSORIES & SUPPORT

8.3 PACKAGING & INDICATORS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 232	Sterilization Pouches	Sealed packaging for individual instruments.	5 "x10"	Medical paper /film	Multiple pouch sizes
ST- 233	CSR Wraps	Wrapping material for tray sterilization.	24 " x 24"	Polypropylene	24-40" squares
ST- 234	Chemical Indicators	Confirms sterilization exposure.	Class 1 strips	Chemical paper	Class 1-6
ST- 235	Bowie-Dick Test Pack	Steam penetration testing.	Single-use pack	Paper/ chemical	Daily test format

8.4 ACCESSORIES & SUPPORT

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 236	Autoclave Tape	Secures wraps; color change indicator.	34" width	Paper/adhesive	2-1" widths
ST- 237	Tray Dividers	Segments instruments within trays.	Adjustable bars	Stainless steel	Fixed/adjustable
ST- 238	Labeling Tags	Identification for sets and trays.	Standard tag	Plastic	Color-coded

GENERAL EXAMINATION

OTIC & OPHTHALMIC DIAGNOSTICS

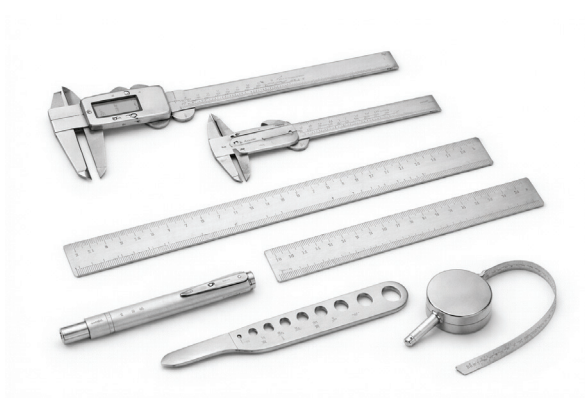

9 - DIAGNOSTIC INSTRUMENTS

9.1 GENERAL EXAMINATION

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 239	Stethoscope	Auscultation of heart and lungs.	Adult dual-head	Stainless steel /PVC	Pediatric;cardiology: bell/diaphragm
ST- 240	Thermometer	Core body temperature measurement.	Digital rectal	Plastic/ electronic	Flexible tip; infrared
ST- 241	Penlight	Oral, pupillary, wound examination.	LED pocket	Aluminum/ plastic	Reusable; disposable
ST- 242	Calipers	Measurement of masses or wounds.	6" (15 cm)	Stainless steel	4-8" (10-20 cm)

9.2 OTIC & OPHTHALMIC DIAGNOSTICS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 243	Otoscope	Ear canal examination.	Rechargeable head	Plastic/metal	Fiber-optic; halogen
ST- 244	Ophthalmoscope	Fundic examination.	Direct scope	Plastic/metal	PanOptic-style
ST- 245	Tonometer	Intraocular pressure measurement.	Rebound type	Electronic	Applanation
ST- 246	Eye Test Strips	Tear and corneal testing.	Schirmer strips	Paper	Fluorescein strips

MONITORING & VITAL SIGNS

POINT-OF-CARE TESTING

9.3 MONITORING & VITAL SIGNS

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 247	Pulse Oximeter	Oxygen saturation and pulse rate.	Clip sensor	Plastic/ electronic	Tongue/ear probes
ST- 248	Blood Pressure Doppler	Non-invasive BP measurement.	Handheld Doppler	Plastic/ electronic	Cuff sets neonata -large
ST- 249	ECG Leads	Cardiac rhythm monitoring.	Standard lead set	Silicone/metal	3-lead; 5-lead

9.4 POINT-OF-CARE TESTING

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 250	Glucose Meter	Blood glucose measurement.	Handheld meter	Plastic/ electronic	Species-calibrated strips
ST- 251	Urinalysis Strips	Chemical urine analysis.	Multi-parameter	Chemical paper	8-12 parameter
ST- 252	Centrifuge Tubes	Sample preparation.	5 mL tube	Plastic	1.5-15 mL

9.5 CLINIC UTILITY & MINOR PROCEDURE

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 253	Lister Bandage Scissors	Cutting bandages safely.	5.5" (14 cm)	Stainless steel	4-7" (10-18 cm)
ST- 254	Utility Shears	Heavy cutting tasks.	8" (20 cm)	Stainless steel	Serrated/plain
ST- 255	Skin Stapler	Rapid skin closure.	Disposable	Plastic/steel	15-35 staple loads
ST- 256	Staple Remover	Removal of skin staples.	Standard	Stainless steel	Universal pattern

AIRWAY MANAGEMENT

BREATHING CIRCUITS & ACCESSORIES

10 - ANESTHESIA & AIRWAY MANAGEMENT

10.1 AIRWAY MANAGEMENT

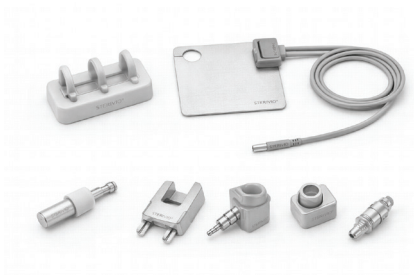

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 257	Laryngoscope Handle	Power handle for laryngoscope blades.	Standard battery handle	Stainless steel	Short/long handles; rechargeable
ST- 258	Laryngoscope Blades	Visualization of larynx during intubation.	Miller #2	Stainless steel	Miller #0-#4; Macintosh #1-#4
ST- 259	Endotracheal Tubes	Maintains airway during anesthesia.	6.0 mm ID	PVC	2.0-14.0 mm ID; cuffed/uncuffed
ST- 260	Stylet	Guides endotracheal tube placement.	Standard malleable	Aluminum/ plastic	Pediatric/adult lengths

10.2 BREATHING CIRCUITS & ACCESSORIES

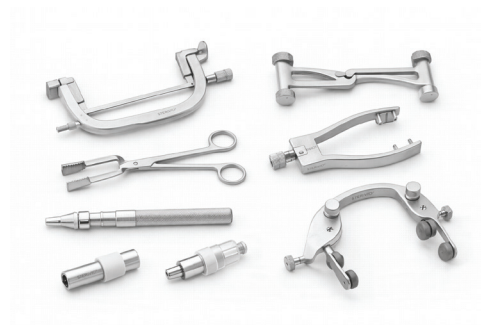

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 261	Bain Circuit	Non-rebreathing anesthesia circuit.	Small animal	Rubber/plastic	Pediatric/adult
ST- 262	Rebreathing Circuit	Closed-loop anesthesia delivery.	Circle system	Rubber/plastic	Small/medium/large
ST- 263	Rebreathing Bag	Reservoir bag for ventilation.	1L	Rubber/latex -free	0.5-5 L
ST- 264	Soda Lime Absorber	CO ₂ absorption during anesthesia.	Standard canister	Plastic/ chemical	Granule or pellet

MONITORING & DELIVERY

INJECTION & INFUSION SUPPORT

OTIC & OPHTHALMIC DIAGNOSTICS

10.3 MONITORING & DELIVERY

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 265	Flowmeter	Regulates anesthetic gas flow.	Single-tube	Metal/glass	Dual-tube
ST- 266	Anesthetic Mask	Face mask for induction.	Medium cone	Silicone	Neonatal-large
ST- 267	Oxygen Tubing	Gas delivery from source to patient.	Standard bore	PVC	Multiple lengths

10.4 INJECTION & INFUSION SUPPORT

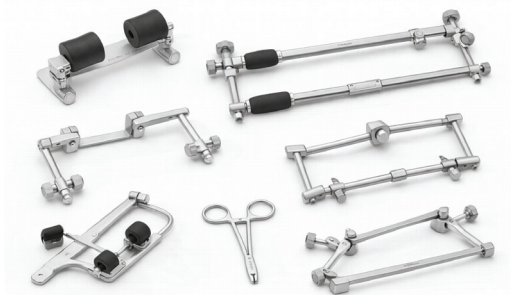

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 268	Infusion Pump	Controlled IV fluid delivery.	Single-channel	Electronic	Multi-channel
ST- 269	Syringe Pump	Precise drug infusion.	Single syringe	Electronic	Multi-syringe
ST- 270	IV Catheters	Venous access for fluids/drugs.	22G x 1"	Teflon/ polyurethane	14G-26G; -2"
ST- 271	Extension Sets	Extends IV access.	Standard tubing	PVC	Luer- lock/ needleless

10.5 ANESTHESIA ACCESSORIES

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 272	Tongue Forceps	Tongue control during intubation.	5.5" (14 cm)	Stainless steel	Straight/serrated
ST- 273	Bite Block	Prevents tube occlusion.	Medium	Rubber/ silicone	Small/medium/large
ST- 274	Heat Support Pad	Maintains body temperature.	Reusable pad	Silicone/ electronic	Disposable/reusable

PATIENT RESTRAINT

RECOVERY & PROTECTIVE RESTRAINT

TABLE & POSITIONING SUPPORT

11 - ANESTHESIA & AIRWAY MANAGEMENT

11.1 PATIENT RESTRAINT

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 275	Nylon Muzzle	Temporary restraint for examination or treatment.	Medium	Nylon	XS-XL
ST- 276	Basket Muzzle	Allows panting while restricting bite.	Medium	Plastic/rubber	Small/medium/large
ST- 277	Short-Snout Muzzle	Designed for brachycephalic breeds.	Medium	Nylon	Small/large
ST- 278	Slip Lead	Quick control during exam or transfer.	48" (122 cm)	Nylon	36-60" (91-152 cm)
ST- 279	Adjustable Lead	Controlled restraint in treatment areas.	60" (152 cm)	Nylon	48-72" (122-183 cm)

11.2 RECOVERY & PROTECTIVE RESTRAINT

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 280	Elizabethan Collar (E-Collar)	Prevents self-trauma during recovery.	Medium	Polypropylene	3-30 cm depth
ST- 281	Soft Recovery Collar	Flexible alternative to rigid E-collars.	Medium	Foam/fabric	XS-XL
ST- 282	Inflatable Recovery Collar	Restricts head movement post-procedure.	Medium	PVC/fabric	Small/medium/large

11.3 TABLE & POSITIONING SUPPORT

SKU	Instrument Name	Description	Size/Style	Material	Variant Notes
ST- 283	Exam Table Arm	Secures patient during examination.	Clamp-mounted	Stainless steel	Fixed/adjustable
ST- 284	Crossbar Restraint Arm	Lateral positioning during procedures.	Standard	Stainless steel	Short/long reach

SECTION 12 — SPECIALTY KITS

(Pre-configured instrument sets for efficiency, training, and standardization)

Table Guide — Specialty Kits

- Size/Style: Typical kit configuration
- Variant Notes: Alternate configurations, sizes, or instrument counts
- Material: Primary construction; alternate materials may be supplied upon request

SURGICAL KITS

SPAY / NEUTER KITS

DENTAL KITS

12.1 SURGICAL KITS

SKU	Kit Name	Description	Size/Style	Material	Variant Notes
ST- 285	Minor Surgery Kit	Basic instruments for wound care and minor procedures.	10-12 instruments	Stainless steel	Expanded sets; small/large animal
ST- 286	Major Surgery Kit	Comprehensive general surgery set.	18-24 instruments	Stainless steel	Left/right patterns; TC options
ST- 287	Basic Surgery Kit	Core instruments for routine procedures.	14-16 instruments	Stainless steel	Soft tissue /mixed sets

12.2 SPAY / NEUTER KITS

SKU	Kit Name	Description	Size/Style	Material	Variant Notes
ST- 288	Spay/Neuter Kit	Instruments optimized for ovariectomy and castration.	Small animal	Stainless steel	Dog/cat-specific sets; TC needle holders
ST- 289	High-Volume Spay Kit	Reduces turnover time in high-cadence clinics.	Duplicate instrument set	Stainless steel	Expanded clamp counts

12.3 DENTAL KITS

SKU	Kit Name	Description	Size/Style	Material	Variant Notes
ST- 290	Dental Prophylaxis Kit	Diagnostic and cleaning instruments.	Hand instrumentation	Stainless steel	Scaler/curette variations
ST- 291	Dental Extraction Kit	Instruments for routine extractions.	Winged elevator set	Stainless steel	1-6 mm elevators
ST- 292	Advanced Dental Kit	Complete dental surgical solution.	Prophylaxis + extraction	Stainless steel	Rotary-compatible

ORTHOPEDIC KITS

LARGE ANIMAL & FIELD KITS

STARTER & TRAINING KITS

12.4 ORTHOPEDIC KITS

SKU	Kit Name	Description	Size/Style	Material	Variant Notes
ST- 293	Basic Orthopedic Kit	Core tools for bone handling.	General ortho	Stainless steel	Small/large bone
ST- 294	TPLO Kit	Instruments for tibial plateau leveling osteotomy.	Procedure-specific	Stainless steel	Plate/saw variants
ST- 295	TTA Kit	Tibial tuberosity advancement procedures.	Procedure-specific	Stainless steel	Cage/wedge options

12.5 LARGE ANIMAL & FIELD KITS

SKU	Kit Name	Description	Size/Style	Material	Variant Notes
ST- 296	OB/ Calving Kit	Field-ready obstetrical instruments.	Large animal	Stainless steel	Farm/equine variants
ST- 297	Hoof Care Kit	Trimming and corrective hoof tools.	Farrier-style set	Steel	Cattle/equine
ST- 298	Field Surgery Kit	Portable surgery set for farm calls.	Rugged case	Stainless steel	Expanded layouts

12.6 STARTER & TRAINING KITS

SKU	Kit Name	Description	Size/Style	Material	Variant Notes
ST- 299	Clinic Starter Kit	Foundational instruments for new clinics.Prevents tube occlusion.	Multi-discipline	Stainless steel	Custom builds
ST- 300	Student Training Kit	Educational set for veterinary programs.	Core instruments	Stainless steel	Course- specific
ST- 301	Emergency Kit	Rapid-response tools for urgent care.	Compact case	Stainless steel	Soft tissue / trauma focus

Note: Kit contents represent standard configurations. Instrument quantities, sizes, and materials may be adjusted based on clinic preference or procedure requirements.

Appendix A — Specialty Kit Contents

ST-285 — Minor Surgery Kit (Contents)

Basic instruments for wound care and minor soft-tissue procedures.

- No. 3 Scalpel Handle
- Mayo Scissors
- Metzenbaum Scissors
- Mosquito Hemostats (x2)
- Kelly Hemostat
- Adson Tissue Forceps
- Dressing Forceps
- Mayo-Hegar Needle Holder
- Senn Retractor
- Backhaus Towel Clamp (x2)

ST-287 — Basic Surgery Kit (Contents)

Core instrument set for everyday surgical needs.

- No. 3 Scalpel Handle
- Mayo Scissors
- Metzenbaum Scissors
- Mosquito Hemostats (x2)
- Kelly Hemostat
- Adson Tissue Forceps
- Rat-Tooth Forceps
- Mayo-Hegar Needle Holder
- Army-Navy Retractor
- Backhaus Towel Clamps (x2)

ST-286 — Major Surgery Kit (Contents)

Comprehensive general surgery set for routine and advanced procedures.

- No. 3 & No. 4 Scalpel Handles
- Mayo Scissors
- Metzenbaum Scissors
- Operating Scissors
- Mosquito Hemostats (x4)
- Kelly Hemostats (x2)
- Crile Hemostats (x2)
- Rochester-Carmalt Forceps
- Adson & Brown-Adson Forceps
- Mayo-Hegar Needle Holder
- Olsen-Hegar Needle Holder
- Army-Navy Retractor
- Gelpi Retractor
- Backhaus Towel Clamps (x4)

ST-288 — Spay / Neuter Kit (Contents)

Optimized instruments for ovariectomy and castration.

- No. 3 Scalpel Handle
- Mayo Scissors
- Metzenbaum Scissors
- Rochester-Carmalt Forceps (x2)
- Mosquito Hemostats (x2)
- Kelly Hemostat
- Adson-Brown Tissue Forceps
- Mayo-Hegar Needle Holder
- Olsen-Hegar Needle Holder
- Spay Hook
- Doyen Intestinal Forceps

ST-289 — High-Volume Spay Kit (Contents)

Duplicate instruments for rapid case turnover.

- No. 3 Scalpel Handle (x2)
- Mayo Scissors (x2)
- Metzenbaum Scissors (x2)
- Rochester-Carmalt Forceps (x4)
- Mosquito Hemostats (x6)
- Kelly Hemostats (x4)
- Mayo-Hegar Needle Holders (x2)
- Spay Hooks (x2)

ST-291 — Dental Extraction Kit (Contents)

Core instruments for routine tooth extraction.

- Straight Elevator
- Cryer Elevators (Left & Right)
- Winged Elevators (assorted)
- Luxator
- Root Pick
- Extraction Forceps
- Molt 9 Elevator
- College Tweezers

ST-290 — Dental Prophy Kit (Contents)

Routine dental examination and cleaning instruments.

- Mouth Mirror
- Explorer
- Periodontal Probe
- H6/H7 Scaler
- Columbia Curette
- Gracey Curettes (assorted)
- College Tweezers
- Prophy Angle
- Prophy Cups / Brushes

ST-292 — Advanced Dental Kit (Contents)

Complete dental surgical solution.

- Diagnostic Set (Mirror, Explorer, Probes)
- Full Curette & Scaler Set
- Winged Elevators (1–6 mm)
- Luxators
- Root Picks
- Extraction Forceps
- Prophy Angle
- Contra-Angle Burs
- Diamond Polish Burs

ST-293 — Basic Orthopedic Kit (Contents)

Foundational orthopedic instruments.

- ▶ Hohmann Retractors (assorted)
- ▶ Rongeur
- ▶ Bone Lever
- ▶ Lucas Curette
- ▶ Osteotome
- ▶ Mallet
- ▶ Reduction Clamp
- ▶ Wire Cutter
- ▶ Depth Gauge

ST-294 — TPLO Kit (Contents)

Procedure-specific tools for TPLO surgery.

- ▶ TPLO Saw
- ▶ TPLO Plates
- ▶ Plate Bending Irons
- ▶ Drill Guide & Sleeve
- ▶ Tap Handle
- ▶ Screwdrivers
- ▶ Bone Holding Forceps
- ▶ Reduction Clamp

ST-295 — TTA Kit (Contents)

Instruments for tibial tuberosity advancement.

- ▶ TTA Wedges
- ▶ Drill Guide
- ▶ Plate Holder
- ▶ Bone Holding Forceps
- ▶ Screwdrivers
- ▶ Depth Gauge
- ▶ Reduction Clamp

ST-296 — OB / Calving Kit (Contents)

Field-ready obstetrical instruments.

- ▶ OB Chains (pair)
- ▶ OB Chain Handles
- ▶ OB Hooks
- ▶ OB Snare
- ▶ Fetotomy Wire
- ▶ Torsion Fork
- ▶ Calf Puller

ST-297 — Hoof Care Kit (Contents)

Trimming and corrective hoof tools.

- ▶ Hoof Knives (Left & Right)
- ▶ Hoof Nippers
- ▶ Hoof Rasp
- ▶ Hoof Tester
- ▶ Clincher
- ▶ Pull-Offs

ST-298 — Field Surgery Kit (Contents)

Portable surgical instruments for farm calls.

- No. 3 Scalpel Handle
- Mayo Scissors
- Metzenbaum Scissors
- Mosquito Hemostats (x2)
- Kelly Hemostat
- Adson Tissue Forceps
- Mayo-Hegar Needle Holder
- Sponge Forceps
- Backhaus Towel Clamps (x2)

ST-300 — Student Training Kit (Contents)

Educational core instrument set.

- No. 3 Scalpel Handle
- Mayo Scissors
- Metzenbaum Scissors
- Mosquito Hemostats (x2)
- Adson Forceps
- Dressing Forceps
- Mayo-Hegar Needle Holder
- Senn Retractor

ST-299 — Clinic Starter Kit (Contents)

Foundational instruments for new clinics.

- No. 3 Scalpel Handle
- Mayo Scissors
- Metzenbaum Scissors
- Mosquito Hemostats (x2)
- Kelly Hemostat
- Adson Forceps
- Dressing Forceps
- Mayo-Hegar Needle Holder
- Army-Navy Retractor
- Backhaus Towel Clamps (x2)

ST-301 — Emergency Kit (Contents)

Rapid-response instruments for urgent care.

- No. 3 Scalpel Handle
- Mayo Scissors
- Metzenbaum Scissors
- Mosquito Hemostats (x2)
- Kelly Hemostat
- Adson Forceps
- Mayo-Hegar Needle Holder
- Needle Counter
- Blade Remover

Note: Kit contents represent standard configurations. Instrument quantities, sizes, and materials may be adjusted based on clinic preference or procedure requirements.

SKU INDEX

General Surgery

SKU Range: ST-001 – ST-051

- Scalpels & Blades
- Surgical Scissors
- Hemostatic Forceps
- Tissue Forceps
- Needle Holders
- Retractors
- Clamps, Graspers & Accessories
- Minor Instruments
- Tungsten Carbide Instruments

Spay / Soft Tissue Surgery

SKU Range: ST-052 – ST-079

- Essential Instruments
- Soft Tissue Handling
- Vascular & Specialty Instruments
- Self-Retaining Retractors
- Major Surgical Retraction
- Specialty Soft Tissue Tools

Dental Instruments

SKU Range: ST-080 – ST-129

- Diagnostic Instruments
- Scaling & Curettage
- Elevators
- Extraction & Luxation
- Rotary / Prophy
- Operative & Endodontic

Orthopedic Instruments

SKU Range: ST-130 – ST-179

- Elevators & Retractors
- Cutting & Shaping Instruments
- Clamps & Reduction Tools
- Bone Handling & Cutting
- Wire Instruments
- Measurement & Fixation
- Drilling & Osteosynthesis
- TPLO / TTA Systems

Neurological / Microsurgery

SKU Range: ST-180 – ST-199

- Micro Scissors
- Micro Forceps
- Micro Needle Holders
- Suction
- Retractors & Systems
- Hooks & Dissectors

Ophthalmic Instruments

SKU Range: ST-200 – ST-229

- Retractors & Specula
- Ophthalmic Scissors
- Knives & Corneal Instruments
- Ophthalmic Forceps
- Probes & Cannulas

Large Animal Instruments

SKU Range: ST-230 – ST-259

- Obstetrical
- Fetotomy
- Gynecological
- Castration
- Hoof Care
- Field & Farm Tools

Sterilization & Instrument Care

SKU Range: ST-260 – ST-269

- Trays & Cassettes
- Cleaning Accessories
- Packaging & Indicators

Diagnostic Instruments

SKU Range: ST-270 – ST-279

- Examination
- Monitoring
- Point-of-Care Testing
- Clinic Utility Instruments

Anesthesia & Airway Management

SKU Range: ST-280 – ST-284

- Airway Management
- Breathing Circuits
- Monitoring & Accessories

Clinical Restraint & Safety

SKU Range: ST-285 – ST-289

- Patient Restraint
- Protective & Recovery Accessories

Specialty Kits

SKU Range: ST-290 – ST-301

- Surgical Kits
- Spay / Neuter Kits
- Dental Kits
- Orthopedic Kits
- Large Animal & Field Kits
- Starter & Training Kits
